Course Objectives
This course is an introduction to the study of cities using an interdisciplinary approach that includes economic development, environmental studies, anthropology, psychology, sociology and public administration. The course emphasizes the roots of the contemporary urban experience and integrates the field of urban studies with students’ everyday experiences. The course is designed to meet the following learning objectives in accordance with CSU’s General Education requirements:

Breadth of Knowledge: Social Science
• Understand the complex issues and challenges facing urban areas.
• Recognize the importance and usefulness of multi-disciplinary approaches to resolving these challenges.
• Introduce basic theoretical and empirical concepts used in the respective social scientific disciplines to explain the behavior of individuals and groups in societies, economies, governments, and subcultures.
• Present how data are collected and analyzed in social-scientific disciplines.
Skill: **Critical Thinking**
- Inspire critical thinking using multi-disciplinary approaches and exercises.
- Develop higher-order thinking (analysis, synthesis, evaluation) to address complex urban problems.

Skill: **Writing**
- Completion of “writing-to-learn” exercises through online discussions designed to incorporate concepts learned in the text chapters into daily life experiences.
- Fulfillment of “writing-to-communicate” exercises designed to test understanding of academic journal articles and ability to convey responses in a logical manner.

Additional Skills:
- Encourage time management through multiple assignments.
- Develop technology management and exploration skills.

**General Education Statement**
This course fulfills a Social Science Breadth of Knowledge General Education requirement and promotes the Skill Areas of critical thinking and writing.

**Course Method**
The course will be conducted on-line in CSU’s Blackboard/CE6 platform.

**Course Requirements and Grading Policy**
Grades are based on writing assignments (essays, discussions, critical thinking exercises), a mid-term exam and a final exam. Students are expected to:

- **Read all textbook chapters and other assigned readings before beginning the respective on-line sessions**;
- **Participate actively in discussions and ask clarifying questions**;
- **Prepare and submit all written assignments. Late assignments will not be accepted**;
- **Send all discussion postings and written assignments through Blackboard**;
- **Log on to the course site daily to check for changes and/or additional information**.
Essays, discussions, and critical thinking exercises are due by the date specified in the syllabus Course Schedule. Grades are weighted as follows:

**Grade Weight**

**Total Possible points for the semester: 600 points**

*Keep in mind:* The textbook used for this course contains seventeen chapters. Therefore, a test bank is used to generate the questions for the mid-term and final exam. As a result, the number of questions on the mid-term and final exam will vary since the exams are not cumulative; however, the total number of questions for each of the chapters presented up to the respective exam is the total number of possible points. For instance, the mid-term may consist of 56 questions (5-7 questions from each of the chapters covered from the beginning of the semester until the mid-term), while the final may consist of 63 questions (5-7 questions from the chapters covered from the mid-term until the end of the semester). The final grade for each exam will be calculated as follows:

**Mid-term:** 56/56 = 100 points/A (100%), 43/56 = 77 points/C+ (77%), etc.  
**Final exam:** 63/63 = 100 points/A (100%), 57/63 = 90 points/A- (90%), etc.

*FYI:* The two faculty essays, two critical thinking essays, three critical thinking essays, five discussion/five response postings, mid-term and final exam add up to a total of 600 possible points for the semester. The grade breakdown listed above is based on the accumulation of the total number of points students' actually received divided by 600, which is the total number of points possible (100 points for each of the six required assignments). Students’ must keep in mind the final breakdown of grades is based on the overall spread of scores achieved by the class for the semester. **Below is a summary of the grade scale for the course.**

Policies
- Educational access is the provision of classroom accommodations, auxiliary aids and services to ensure equal educational opportunities for all students regardless of their disability. Any student who feels he or she may need an accommodation based on the impact of a disability should contact the Office of Disability Services at (216) 687-2015. The Office is located in MC 147. Accommodations need to be requested in advance and will not be granted retroactively.
- Refer to the CSU Bulletin for add/drop, withdrawal procedures, S/U, incomplete grading.
- For class cancellations due to weather, call CSU information (687-2000) before class, or access the Cleveland State University home page at www.csuohio.edu.
- Academic misconduct: plagiarism or cheating will result in an “F” for the assignment and possibly an “F” for the course.
- Late assignments are not accepted
- Make-ups of exams and assignments are at the discretion of the instructor and require valid written documentation (for example, written doctor’s excuse).
- No grade of “incomplete” will be assigned for this course.
- **If you fail to withdraw from the course by the designated drop date listed on the university calendar the letter grade of “F” will be assigned at the end of the semester, unless prior arrangements have been made with the instructor to complete the requirements for the course during the semester the student is enrolled.**
- The Instructor reserves the right to make changes to this syllabus.
WEEKLY ACTIVITIES
Each week every student must complete the assigned readings and one written assignment (an assignment based on a MGLCUA faculty article, a critical thinking essay, or a discussion).

Assignment Due Dates

All assignments are due by 8pm on Thursday of the week they are assigned. Grading rubrics will be provided for written assignments.

Late assignments will not be accepted.

FOR ALL ASSIGNMENTS, YOU ARE REQUIRED TO NAME THE HOMEWORK FILES WITH YOUR NAME (E.G. J_SMITH_POLICY_PAPER.DOC) AND PUT YOUR NAME ON THE DOCUMENT ITSELF OR YOU WILL LOSE (10) POINTS OFF OF YOUR GRADE.

Written Assignments on MGLCUA Faculty Articles
There are two (2) assigned readings by MGLCUA faculty. All students are required to read the articles and then complete a writing assignment based on the article.

Critical Thinking Essays
Students will be required to write two (2) critical thinking essays. You will be presented with a scenario and you must answer questions about it.

Critical Thinking Exercises
There are three (3) critical thinking written exercises in this course. These short exercises are designed to help students develop their respective critical thinking skills. These exercises are not difficult, but do require some thought.

On-line Discussions
Students will participate in on-line discussions based upon the textbook readings. The instructor will pose a question and indicate the requirements for a sufficient answer. Students will be asked to answer that question and respond to other students’ contributions as well. When asked to respond to another student, you must do so using the reply function. Discussions must be delivered by the due date listed on the syllabus. Late discussion responses will not be accepted.

FYI: Students are required to post a response to the question posed and then post a response to a classmates posting for a total of two postings for the five discussions presented. For example, students should have a total of (10) ten postings for the five discussions presented. (1) Their initial answer to the question, and (2) a response to an answer presented by another student in the class. The objective of this assignment is to promote dialog and an active learning environment among students. Keep in mind students should not use
this platform to spout their own ideologies, but to share and express ideas relative to the class.

Quizzes and Exams
• Questions for the mid-term and final exams are drawn from the textbook and appear in the chapter study quizzes in the Assessments section. The instructor has provided these NON-GRADED study quizzes for each chapter to help you prepare for the exams. **These quizzes are for study purposes only and are not factored into your grade.**

• For each chapter quiz, there will be ten questions randomly selected from a larger bank of questions. The more times you take the quiz, the more questions you will see. **Remember it is these questions that will appear on your midterm and final exams.** Therefore, it is recommended that you take the quizzes as part of your exam study strategy. You may take the quizzes as often as you like; however, quizzes will be closed once the large exam opens. **For instance, the quiz bank will be available from August 27th through October 1st in preparation for the mid-term. The quiz bank will not be open/available for students to prepare for the mid-term after October 1st at 5:00 p.m. The quiz bank will reopen from October 15th until December 3rd in preparation for the final exam. The quiz bank will close and not be available after December 3rd at 5:00 p.m.**

• **Please note that the quizzes do not give you the right answer, but tell you if your answer is right or wrong.** If you get the answer right, great. If you get the answer wrong, it is recommended that you investigate the question and see if you can locate the correct answer in your text. Students learn the material by looking up answers themselves, not by printing out each of the quizzes with the correct answers filled in by the computer.

*The final exam is not cumulative; it covers only the second half of the class. The mid-term and final exams can be taken only ONE time and are taken online under the Assessments section on Blackboard.*

Technology Management
YOU ARE RESPONSIBLE FOR MANAGING THE TECHNOLOGY. YOU NEED TO FACTOR THAT INTO YOUR PLANNING AND ORGANIZATION. For example, (1) keep copies of your homework in case they don’t download correctly. (2) E-mail or call the instructor immediately if the computer crashes in the middle of an exam. (3) If your personal computer crashes, you will have to find another way to participate such as using CSU computers.

For those who have permission to do school work at your workplace and plan to do so, please be advised that many workplaces have computer safeguards in place that may prevent you from doing so. In particular, workplace pop-blockers may block the quizzes and exams.
Frequently Asked Questions (FAQs) about UST 200 in Blackboard:

Q. When are assignments due?
A. See Course Schedule in Syllabus. Also remember to check the Announcements and/or emails from your instructor for any changes.

Q. How do I check my grades?
A. Click on My Grades. You will find it along the left hand column menu on the Blackboard course site.

Q. Can I email you my assignments?
A. Please submit all assignments under the appropriate section in Blackboard. Assignments improperly submitted will not be accepted without prior approval from the instructor.

Q. I thought I did better on last week’s assignment. Why did I get the grade I did?
A. Each assignment (except the Discussions) has a grading rubric. The teaching assistant uses the rubric in grading the assignments and in assigning grades. You need to read the rubric carefully and, if you still do not know why you received the grade you did, you need to email the teaching assistant. Email the Instructor only AFTER you have tried to resolve your concern with the teaching assistant.

Q. I cannot find someone’s email address on the list in the course. What should I do?
A. Go to the bottom right of the screen and click on the little green arrow. You will get a drop-down menu. Click on ALL and then click on the green arrow again. Your screen will refresh and you will get the whole roster of names for the course. This little green arrow also shows up under the Announcements section when the list of weekly announcements grows long.

Below are some general comments about the course that should help you navigate your way through a successful experience in UST 200 on-line:

- Check the Blackboard course site frequently to post course updates, respond to emails, etc. I may check the course site over the weekend, but you may not hear from me until Monday.
- Please give the teaching assistants a week to grade your assignments. The teaching assistant is assisting the instructor with multiple courses.
- Make sure you read the syllabus THOROUGHLY. Because we do not meet face-to-face, I try and provide as much information as possible in the syllabus. Places to check for additional information on the course site in Blackboard are: Announcements, Homepage, and Emails.
- Remember that your relationship with the Instructor is an Internet relationship. I cannot know what is going on in your life as it pertains to the course if you do not communicate with me. Please make every effort to convey your concerns or
questions to me, and I will make every effort to address these issues in a satisfactory and timely fashion.

- There is really no excuse for missing any weekly assignments. Everything except for the exams and the last critical thinking essay are open NOW, so you can plan around your business trip, sister’s wedding, birth of your child, etc. I know things happen, but please be aware that any emergency involving a request for a time extension requires a valid written excuse (hospital notice, jury duty notice, etc.), and acceptance of such an excuse is up to the discretion of the Instructor.

- If I was a student in the class and wanted to succeed in the course, here is what I would do every week. **This is merely a suggested “to do” list; everyone’s schedules and study patterns are different.**
  - Log into the class on Monday night or Tuesday and read the weekly Announcement. Make sure I understand what is due by Thursday and email the Instructor if I have any questions.
  - Complete the assigned readings for the week.
  - Check the course site daily for any updates. Do the weekly written assignment.
  - Submit my written assignment by Thursday at 8pm.
  - Do the quizzes that pertain to this week’s readings over the weekend and take notes/highlight the text so I know what to study for the exam.
  - **THE WEEKEND BEFORE THE EXAM:** Take the chapter quizzes over and over and take notes/highlight text. Take the exam Monday or Tuesday while the quiz questions are still fresh in my memory.
  - Keep in mind student’s are able and encouraged to work ahead to successfully complete the course. FYI: All assignments are open and available for students to access, with the exception of the mid-term and final exam.
