   d.) Nonprofit Accounting Rules & Structure

iii.) Budgeting & Management Tools
   a.) Ratio Analysis
   b.) Effective Communications of Financial Data
   c.) Cash Management & Liquidity
   d.) Budgeting & Planning

Course Description

The course learning format includes in-class lectures and assignments, class and small group discussions, and textbook reading assignments. In-class attendance and participation are critical components of success. Attendance will be taken at every class. You may miss one class during the semester without deduction. Students who miss more than one class will have 3 points deducted from their final weighted-average grade for every additional class missed. Students are expected to read assignments prior to class. After Week #1, one to two (1-2) chapters of the textbook will be covered each week thereafter until all but the final chapter is completed.

Elements of the class will use CSU’s "Black Board" applications. Class lectures, notes, and assignments will be posted to Black Board on a weekly basis. Students are required to have access to a computer with internet and a World Wide Web capability either privately or through the College of Urban Affairs computer lab.

Using the Black Board application, students are encouraged to email the instructor at any time for assistance or clarification on assigned work. Please send email through the Blackboard application for the fastest response.
Core Competencies

To succeed in this class, students must be prepared to read weekly assignments from the text and other articles assigned, write and convey their thoughts coherently, attend every class session and be present at the start of class through its completion, show courtesy and respect to their fellow classmates, ask questions and demonstrate in class that they have read and understood the materials, submit projects on assigned due dates, and be organized.

Homework Assignments

Students are expected to read assigned chapters in the text before class. During the first five weeks of class, students will receive homework assignments, which should be completed and turned in for a grade. Homework assignments will be posted to Black Board and should be submitted via Black Board before class on the due date. Credit will not be given for late assignments unless prior approval has been given by the instructor. Emailed homework assignments will not be accepted.

Individual Project

Students will select a large or mid-size nonprofit organization as a case study for the class project. Students may choose an organization in which they have an interest or relationship. All selections must be approved by the instructor prior to beginning on the project. Working individually, each student will prepare an analysis of the organization’s financial structure and operations. Financial ratio analysis and other tools will be used for the assignment. The analysis will be based upon the Organization’s most recent IRS Form 990, which is publicly available on Guidestar.org. After completing the analysis and having it graded by the Instructor (Part 1), students will prepare a presentation of the analysis for the class using charts and graphs (Part 2). Students will be evaluated on the substance and form of the presentation and the calculation of key financial ratios for the Organization.

Final Exam

A take-home final exam will be posted to Black Board prior to Finals Week. The final exam will be cumulative.

University Deadlines

For the current semester, the deadline for dropping a course is September 4, 2015. The last day to withdraw from the course is October 30, 2015. The final examination week is December 7-12, 2015.
**Student Grading**

CSU uses the following letter grades with plusses and minuses. In the Levin College the letter grades follow this numeric scale:

- **A** = 94-100%
- **A-** = 90-93
- **B+** = 87-89
- **B** = 83-86
- **B-** = 80-82
- **C+** = 77-79 (there is no C+ grade for graduate students; C = 70-79 for grad students)
- **C** = 70-76 for undergraduates, 70-79 for grad students
- **D** = 60-69 (there is no D for graduate students)
- **F** = 59 and below for undergraduates, 69 and below for graduate students

**Grades of “I” and “X”**

- **X** - The grade of "X" can be assigned by the instructor when an attending/participating student has stopped attending/participating without notification and has not completed all assignments for reasons that cannot be determined by the end of the grading period. An "X" automatically becomes an F if not resolved by the last day of instruction of the following semester. An “X” also will be assigned by the University Registrar when no grade is submitted by an instructor.

- **I** - **Incomplete.** The "I" grade is given when the work in a course has been generally passing, but when some specifically required task has not been completed through no fault of the student.

An "I" grade can be assigned by the instructor when all three of the following conditions are met:

1. Student is regularly attending/participating in the class and has the potential to pass the course;
2. Student has not completed all assignments and has stopped attending/participating for reasons deemed justified by the instructor; and
3. Student has notified the instructor prior to the end of the grading period.

**Students with Special Needs**

Educational access is the provision of classroom accommodations, auxiliary aids and services to ensure equal educational opportunities for all students regardless of their disability. Any student who feels he or she may need an accommodation based on the impact of a disability should contact the Office of Disability Services at (216)687-2015. The Office is located in MC 147. Accommodations need to be requested in advance and will not be granted retroactively. Students should notify the instructor as soon as possible if they have been granted an accommodation through the Office of Disability Services.

**Writing Assistance**

Students with difficulty writing may contact the Writing Center located in Main Classroom 321 for assistance. Students should use the American Psychological Association (APA) format for citations and reference pages.
**Plagiarism**

Plagiarism is stealing and/or using the ideas or writings of another in a paper or report and claiming them as one’s own. This includes but is not limited to the use, by paraphrase or direct quotation, of the work of another person without full and clear acknowledgment.

The penalties for plagiarism are found in full in the Student Handbook under Academic Regulations (Policy on Academic Misconduct) at the following link:
